

Employee: How to Set Up the EVV Device

How to access and set up your DCI Mobile app, FOB (alternative device) and Landline, **choose one method to use.**

FOB or Alternative Device

HHSC ONLY allows the use of an alternative device if this situation occurs, the client/employer will be allowed to order the FOB/alternative device from their Employer Services Manager in their region. **This is a change from HHSC, effective June 2023, in association with the FMSA new EVV vendor choice.**

The DCI FOB is an alternative method of EVV that can be used when the employee does not have a smartphone/device and the client does not have a landline. The FOB is a small device secured in the client/employer's home.

If you need additional technical assistance, contact your area Employer Services Manager:
